PRY-CAM HOME

The ideal solution to monitor electrical installation in the home. Helps to improve functionality, safety and energy efficiency.

Prysmian

A Brand of Prysmian Group

THE RIGHT SOLUTION FOR ELECTRICIANS AND HOMEOWNERS

Compact and easy to install, PRY-CAM HOME consists of two units, MASTER and PLUG, that allow measuring the key parameters of electrical installation in homes. Data is always available in real time through a dedicated APP.

PRY-CAM HOME allows to quickly carry out home electrical installations' check tests and the printout of a technical annex summarising all the tests performed.

A new service for customers

The APP notification system allows **prompt intervention** should faults or malfunctioning occur. In addition, PRY-CAM HOME allows electricians to plan customised **maintenance operations** and make their customers' electrical installations more efficient. Thanks to PRY-CAM HOME, electricians become a true reference point as for household electrical installations' safety, full functionality and energy efficiency.

One solution, many functions

- / Real time measurement of an installation's key parameters
- / Voltage drop test
- / Earth loop impedance test
- / Miniature Circuit Breaker test
- / Residual Current Circuit Breaker test

Easy to install, simple to use

YOU WILL NEED

A **smartphone** to download the **APP** that will guide you through the device's installation step by step.

The **MASTER** unit is mounted on the electrical panel's DIN rail and performs the checks in all test points of a circuit by ways of the **PLUG** device.

PRY-CAM HOME PRO,
APP FOR PROFESSIONAL
ELECTRICIANS

During installation and maintenance operations, the **APP** gives access to all MASTER devices installed and allows monitoring of the measured parameters in real time.

THE SAFER THE INSTALLATION, THE MORE EFFICIENT THE HOUSE

Safety first.

PRY-CAM HOME allows preventing faults of home electrical appliances, overloads and black-outs. The APP dedicated to homeowners notifies anomalies and malfunctioning in real time.

Consumption always under control.

The dedicated APP allows homeowners to monitor, also in real time, their energy consumption and guides them towards a better energy awareness.

PRY-CAM HOME,
APP FOR
HOMEOWNERS

A SIMPLE AND INTUITIVE DASHBOARD

- / **Consumption:** monitor your energy consumption's daily trend in terms of costs and CO₂ emissions.
- / **Energy quality:** keep your power load under control and receive notifications about the remaining available power and possible outages.
- / **Status of the connected appliances** and of the entire electrical installation.

PRY-CAM HOME MASTER package contents:

- 1 x PRY-CAM HOME MASTER (PCH-0001)
- 2 x 0,25 m Prysmian Group cable c.s.a. 1x6 mm²
- 1 x 1 m cable c.s.a. 1x0,5 mm²
- 1 x instructions manual

PRY-CAM HOME PLUG package contents:

- 1 x PRY-CAM HOME PLUG (PCH-0002)
- 1 x IEC320/C13 + 0,3 m of cable c.s.a. 3x1 mm² + CEE 7/7
- 1 x IEC320/C13 + 0,3 m of cable c.s.a. 3x1 mm² + 3 x crocodile/alligator clips
- 1 x instructions manual
